

INDIVIDUAL LESSONS

GENERAL INFORMATION

- Individual lessons are one-on-one lessons with the instructor. They can be 30, 45, or 60 minutes long.
- These lessons are a good choice for students who are dedicated and very interested in learning and have good practice habits at home. In individual lessons the student receives teacher's attention for the full length of the class, and the instructor can focus on more details when it comes to technique, expression, and repertoire choice.
- Individual lessons also allow the student to prepare for more competitive programs such as IMA Competition, and higher levels of Illinois State Exam.
- The tuition rates for the lessons are listed next to the name of the teacher in the Faculty Profiles section of our web site. The listed rates are for 30-minute lessons. The tuition for longer lessons is prorated, and 1hr lessons have a discount of \$2 per lesson.
- For voice students, due to the complexity of teaching singing and significant individual differences between students, we suggest individual lessons no later than middle school.
